Design Software	Adobe Photoshop , Adobe Illustrator

PROJECTS

1. MusicX

- MusicX Website is a dynamic platform designed to provide users with an immersive music streaming experience. Leveraging the Spotify API, users can access a vast library of tracks, albums, and playlists directly on our website.
- Our website features a robust search functionality, enabling users to easily discover new music by searching for artists, albums, or tracks.

2.Password Generator

- Designed and implemented a Password Generator using HTML, CSS, and JavaScript, showcasing front-end development expertise.
- The project features a modern and responsive UI, allowing users to customize secure passwords with options for length, uppercase letters, numbers, and special characters.

3.Weather App

- Get real-time weather updates with our Weather Application, designed with HTML, CSS, and JavaScript. Access detailed forecasts for your specified location or through auto-detection.
- Seamlessly integrated with an API link, our user-friendly application ensures accurate weather information tailored to your needs, enabling informed decision-making on-the-go.
